Dear Ms. Nash and Ms. Churchill:

The New Mexico Environment Department (NMED) has received the United States Department of Energy (DOE), Newport News Nuclear BWXT-Los Alamos LLC (N3B) and Triad National Security LLC (Triad), collectively referred to as the Respondents, *Notice of Completion of Off-Site Waste Shipment Activity for December 20, 2018, as required by the Federal Facility Compliance Order, Site Treatment Plan, Compliance Plan, Section 4.0* dated and received January 30, 2019, and referenced by N3B-19-0030.

NMED has reviewed the shipments for Waste Activity 4.0 and the enclosed manifests, and has the following comment:

To facilitate NMED's review of future Site Treatment Plan (STP) notifications, please use a subject heading which is consistent with previous submittals. NMED recommends that future final disposition documents be titled:

"Notice of Completion of Off-Site Waste Shipment for Final Disposal, Activity 4.0, Compliance Plan, Site Treatment Plan, Federal Facility Compliance Order, Los Alamos National Laboratory".

This subject heading would clarify that this document is a waste notification for Waste Activity 4.0, Mixed Transuranic Waste (MTRU) which has been received by the Waste Isolation Pilot Plant (WIPP) and not a Quarterly Notification.

If you have any questions regarding this letter, please contact Siona Briley at (505) 476-6049.

Sincerely,

John E. Kieling
Chief
