General

I am sending you a copy of a memo (H8-74-199) which described a study to date groundwater. Some preliminary samples have been sent to a commercial laboratory. Bill Purtyman, Merlin Wheeler and I wish to follow through on this. It is likely that we will be doing so in 1976. I am alerting you to our need to have a chemist involved in the sampling and in the preparation of the samples. We would like to involve a chemist in further study planning.
