Comments on LANL's Evidence of an Annual Training Review

(Oral comments made to LANL on Sept. 11, 1984)

LANL's evidence of an annual training review was deficient for the following reasons:

1. It did not commit LANL to a future, or document a past, annual training review.
2. It covered only two employees; the EID believes more people than this are involved in hazardous waste operations, and the management of those operations, at LANL.
3. It did not describe the training received, either with respect to content or with respect to duration.

LANL agreed to resubmit evidence of compliance with respect to personnel training on Nov. 1, 1984.
