DENISE FORT, DIRECTOR

Permit

October 24, 1984

Mr. Melvin McCorkle, Environmental Engineer
Los Alamos National Laboratory
Los Alamos, New Mexico 87545

Dear Wally,

Enclosed please find the following documents:

- 1.) Draft of Permit Writer's Guidance Document for Hazardous Waste Incineration;
- 2.) Sampling and Analysis Methods for Hazardous Waste Combustion;
- 3.) Draft of Protocol for the Collection and Analysis of Volatile POHC's [principal organic hazardous constituents] using VOST [volatile organic sampling train];
- 4.) Draft of Guidance Manual for Hazardous Waste Incinerator Permits [oriented toward applicants, unlike 1. which is oriented toward regulatory officials];
- 5.) Regulatory Completeness Checklist for Hazardous Waste Incinerators; and
- 6.) The New Mexico Hazardous Waste Act.

We at EID thought the first five of these items would be helpful to your permit application writing. If you have any of these references already, please return the duplicate items to EID.

Sincerely,

Greg Mello
Environmental Scientist
Hazardous Waste Section
