Los Alamos, NM 87544

RE: Security Clearance

Dear Mr. Valencia:

The Hazardous Waste Bureau of the Environmental Improvement Division both conducts, and accompanies the Environmental Protection Agency, on inspections of Los Alamos Scientific Laboratory and Sandia National Lab in Albuquerque for compliance with State and Federal hazardous waste management regulations.

Since a security clearance is required for entry into many areas of the labs, complete inspections cannot be performed without a few EID personnel possessing clearances. These clearances make access easier from both DOE's and EID's standpoint.

John Gould has recently been promoted to Environmental Supervisor of the Enforcement/Inspection Unit of the Bureau. I would appreciate it if you would supply us with the appropriate forms for Mr. Gould, and Gary McGinnis of his staff, to apply for a Security Clearance.

If you should require any further information, please contact John Gould at 827-2935.

Sincerely,

Jack Ellvinger
Program Manager
Hazardous Waste Bureau
