Ms. Kathleen Sisneros  
Bureau Chief  
Hazardous and Radioactive Waste Bureau  
1190 St. Francis Drive  
Santa Fe, New Mexico 87503

Dear Ms. Sisneros:

Subject: Los Alamos National Laboratory Data Access

We request access to the following information that may be in EID files:

- 1. New Mexico EID RCRA permit for Los Alamos National Laboratory *in Elizabeth office.*
- 2. A report submitted to EPA Region VI on or about August 8, 1990, describing all previous site investigations; if available
- 3. A site-wide EIS or EA; if available *- have a yellow version dated 1979 on the very top of the bookshelf.*

I understand in talking to Mr. Boyd Hamilton that items 2 and 3 may not be available.

Ideally we would like to visit the EID office with a copier and copy the sections of interest for the above. If you could please have one of your staff contact Mr. Mike Bitner at (505) 884-5600, if access is permitted we would appreciate it.

Sincerely,

CH2M HILL

Beth A. Baruth
