2246 General

Jerry L. Bellows  
Area Manager  
Department of Energy  
Los Alamos Area Office  
Los Alamos, New Mexico 87544

Dear Mr. Bellows:

Thank you for your July 26, 1991, notification letter which indicates that Los Alamos National Laboratory has discovered another Solid Waste Management Unit (SWMU). After further review and inquiry concerning this SWMU, the Environmental Protection Agency (EPA) will not require a SWMU assessment plan for this SWMU. However, if at a later date new information or subsequent analysis indicates a release or likelihood of a release from the above mention SWMU, EPA may require investigation of this SWMU.

If you have any further questions concerning this issue, please contact Richard Mayer of my staff at (214) 655-6775.

Sincerely yours,

Allyn M. Davis  
Director  
Hazardous Waste Management Division

## FACT SHEET

- Further conversations with LANL personnel and a June meeting with DOE/LANL personnel indicated that no additional barrels were found and no contaminated materials were found in the dirt excavated around the 1 barrel found. In addition, an electromagnetic survey revealed no additional drums.
