Los Alamos, New Mexico 87544

Re: Personal Protection Monitoring
Los Alamos National Laboratory
NM0890010515

XIII

Dear Mr. Vozella:

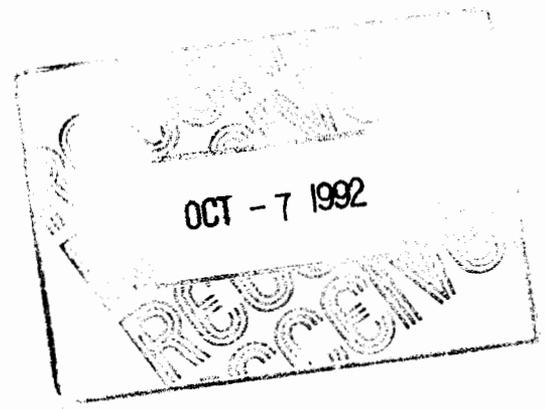

As part of the Environmental Protection Agency's (EPA) oversight of Los Alamos National Laboratory (LANL) RCRA Facility Investigation process, EPA staff will be required to view Solid Waste Management Units (SWMUs), and may potentially be exposed to radioactive contamination. Therefore, I am requesting that you provide dosimeters to EPA personnel frequently working in areas where there is the potential for radiation exposure from current or previous lab activities.

The current EPA staff member who is responsible for oversight of LANL's RFI activities is Barbara Driscoll (SSN 465-90-7987). Should you require additional information, please contact her at (214) 655-6785.

Sincerely,

WK Honker
William K. Honker, P.E.
