DOE/LANL Oversight Program

W Neil Weber, Chief
DOE Oversight Programs

DATE: February 16, 1993

SUBJECT: Upcoming Public Meeting

An AIP Program public meeting is planned for Tuesday, March 30, 7:00-9:00 pm. Each program will have fifteen minutes to present findings/future plans, with a five-ten minute Q & A period following each presentation. It will be up to each program to confirm its participation in the meeting and to let us know who will be representing you sometime before Friday of next week. The subject of the meeting will be our work-to-date or planned projects at Los Alamos National Lab only. A meeting to focus on Sandia will be announced in the future.

If you have ideas regarding a better way of structuring the meeting than so briefly outlined above, please contact Neil Weber (x4252) or me (x4313 or 4308) by this Friday, the 19th.
