memorandum

TO: Distribution

DATE: October 28, 1993

FROM: Ted Norris *TN*

MAIL STOP/TELEPHONE: M992/5-5136

SYMBOL: EM-13:93-A210

SUBJECT: **OPERABLE UNIT 1100 CLOSURE MEETING**

Paul Treat informed me this morning that, in response to Ted Taylor's letter of October 18 (copy attached), Stephanie Kruse of the New Mexico Environment Department (NMED) telephoned to request a meeting concerning the Operable Unit 1100 closure. She is available the mornings of November 16, 17, 18, or 19. I recommend the meeting be scheduled on November 19. The subject is to be our proposed responses to the NMED's comments on the closure plan for the TA-53 surface impoundments.

Please let me know if this meeting should be scheduled on a date other than November 19, and who should plan to attend.

TN/vvm

Attachment: Letter to Barbara Hoditschek from Ted Taylor Dated October 18, 1993

Santa Fe, New Mexico 87502

Dear Ms. Hoditschek:

We have reviewed comments from the New Mexico Environment Department (NMED) regarding the Interim Status Closure Plan for Surface Impoundments TA-53-166 NE and TA-53-166 NW. Because of the significance of some of the comments we request that the deadline for submittal of a revised closure plan be extended from November 3, 1993, to December 14, 1993. We would like to discuss our responses with you at NMED at your convenience, possibly during the week of November 29, 1993. We propose a formal response in the form of answers to each of your comments. After you have time to review our responses and ensure that they are appropriate, we will prepare a revised closure plan based on the approved responses to your comments. If you require further information on this subject please contact me at 665-7203 or have your staff contact Paul Treat at 667-5808.

Sincerely,

Theodore Taylor
Program Manager
