SUBJECT: Request for a Comprehensive List of Current and Proposed LANL Hydrogeologic Projects.

Dear Ms. Webb:

This letter serves as a request by the Agreement-In-Principle Program (AIP), Environmental Management (EM) Oversight Program for a comprehensive list of on-going and proposed LANL hydrogeologic projects. It is the understanding of AIP staff that hydrogeologic projects at LANL are being conducted through various programs such as the General Environmental Protection Program (DOE Order 5400.1), Environmental Restoration Program (framework studies), specific hydrogeologic performance assessments (as required by DOE Order 5820.2.A), and special studies. Such a list would facilitate AIP's commitment to environmental oversight and monitoring to ensure compliance with applicable federal, state, and local laws.

Thank you for your consideration in this matter. If you should have any questions concerning this matter please call Ms. Teri Davis of my staff at 672-0448.

Sincerely,

  
Bruce Swanton,  
EM Oversight Program Manager
