Re: Response to Comments on Technical Assumptions for Data
Collection and Evaluation
Los Alamos National Laboratory, NM0890010515

Dear Mr. Taylor:

Mr. Jon Rauscher of the Environmental Protection Agency (EPA) has reviewed your response dated November 17, 1993, to his comments on the Technical Assumptions for Data Collection and Evaluation, and found that additional information is required on Specific Comments 5 and 6. The response provided by Los Alamos National Laboratory (LANL) for these comments was not adequate. LANL shall submit an additional response within thirty (30) days of receipt of this letter. Resolution of any comments is pertinent to review of the Installation Work Plan (IWP), as the Technical Assumptions proposed by LANL are incorporated into the IWP.

Should you have any questions, please contact me at (214) 655-7441.

Sincerely,

Barbara Driscoll, Geologist
