CERTIFIED MAIL - RETURN RECEIPT REQUESTED

Mr. Benito J. Garcia, Bureau Chief  
Hazardous and Radioactive Materials Bureau  
New Mexico Environment Department  
525 Camino de los Marquez  
Santa Fe, NM 87502

Dear Mr. Garcia:

Enclosed for your review is an estimate of the number of hazardous waste treatability studies to be conducted at the Los Alamos National Laboratory (LANL) during 1994 (Enclosure I). As required by 40 CFR §261.4(f)(9), this submittal also includes estimates of the amount of waste expected to be used in treatability studies at LANL during 1994 and information on treatability studies performed during 1993. Although LANL anticipates several treatability studies during 1994, because of funding issues or programmatic changes, some proposed projects may be postponed or cancelled.

Sincerely,

Joseph C. Vozella, Chief  
Environment, Safety and Health  
Branch

LESH:1JM-001

Enclosure:

## ENCLOSURE I

Part I below provides an estimate of the number of treatability studies Los Alamos National Laboratory anticipates during 1994. Part II reports the number of treatability studies performed during 1993.

### PART I

#### Los Alamos National Laboratory Treatability Study Proposals For 1994 (EPA ID Number NM0890010515)

TREATABILITY STUDY	AMOUNT OF WASTE TO BE USED
1	50 Kg
2	192 Kg
3	< 1 Kg
4	< 1 Kg
5	< 1 Kg
6	10 Kg
7	10 Kg
8	10 Kg
9	10 Kg
10	10 Kg
TOTAL:	295 Kg

### PART II

No treatability studies were conducted at Los Alamos National Laboratory (EPA ID Number NM0890010515) during 1993.
