Re: Response Letter on Sampling Ground Water Wells and Map
Los Alamos National Laboratory (NM0890010515)

Dear Mr. Taylor:

The Environmental Protection Agency (EPA) has reviewed your letter dated August 19, 1994 requesting an extension for submittal of the potentiometric map(s) and to conduct additional sampling at wells which were installed as part of the special permitting condition under the HSWA portion of the RCRA permit. EPA grants your request to provide potentiometric maps by December 30, 1994 and to conduct the first of four ground water sampling events in the first quarter of FY95.

Should you have any questions, please contact Barbara Driscoll at (214) 665-7441.

Sincerely,

William K. Honker, P.E.
Chief, RCRA Permits Branch
