RE: Request for PTS/PCS printouts

Dear Mr. Taylor:

During the meetings between EPA, NMED and DOE/LANL on December 13 and 14 of last year, tentative agreement appeared to be reached between EPA and DOE/LANL to the effect that the Project Tracking System (PTS) or the Project Control System (PCS) reports, together with RFI reports, would provide EPA with project updates of sufficient detail to make the Environmental Restoration quarterly reports unnecessary. NMED's DOE Environmental Management Oversight Program would appreciate receiving the same set of reports as is transmitted to EPA.

If you have any questions in this matter please contact me at 672-0447.

Sincerely,

Bruce Swanton, Program Manager
DOE EM Oversight/NMED
