Re: **NMED Report on Water Level Maps for LANL**

Dear Ms. Koch:

Per your February 9, 1995 telephone request, please find enclosed a copy of the New Mexico Environment Department (NMED) Hazardous and Radioactive Materials Bureau's (HRMB) technical review of LANL's December 27, 1994 submittal of Water Level Maps for LANL. This is a copy of the document which was provided to EPA Region VI. HRMB appreciated the opportunity to have discussed with DOE/LANL on January 30, 1995 some of HRMB's concerns surrounding the subject report. It appeared from the technical meeting that most of HRMB's concerns were agreed with by LANL personnel, however, a few issues remain to be determined as a matter of interpretation.

HRMB welcomes additional meetings of this nature to increase technical exchange of information between parties and to continue enhancing communication between facilities and regulators. HRMB also welcomes DOE/LANL's comments on the enclosed document. Thank you again for your attention to this matter. If you should have any questions, please contact either Ms. Teri Davis or Ms. Susan Hoines of my staff at (505) 827-4308.

Sincerely,

Ronald Kern, RCRA Technical Compliance Program Manager
 Hazardous and Radioactive Materials Bureau
