Dear Ms. Driscoll:

In keeping with our commitment to involve regulators and interested stakeholders in our decision-making processes, transmitted herewith are the preliminary fiscal year (FY)1997 Environmental Management (EM) Activity Data Sheets (ADSs) for sites under the purview of the Albuquerque Operations Office (AL). These preliminary ADSs will afford you the opportunity to understand sites' priorities as well as provide you with the mechanism for pre-decisional input to EM program planning as these ADSs will ultimately form the basis of AL's FY 1997 budget submission to EM Headquarters on April 17, 1995.

In light of constrained budgets and changing priorities within the EM arena, on a local as well as national level, your input into the EM FY 1997 budget process is extremely valuable. Your involvement in this process will assist AL in establishing priorities and developing an environmental program that is both cost effective, meets legal, environmental, health, safety and other essential program requirements, and fosters communications between AL and the public.

Should you have any questions regarding these data sheets, please do not hesitate to contact your Area Office liaison. We look forward to meeting with you next week to discuss any concerns you might have.

Sincerely,

Ronald D. Hanson
 Ronald D. Hanson
