

ER PROJECT  
TELECONFERENCE NOTES

To: B. Driscoll  
Phone: 214-665-7441  
Org: EPA  
Date: 1/18/96

From: T. Taylor  
Phone: 505-665-7203  
Org: LAAG  
Time: 7:25 a.m. MST

Other Parties: None

Discussion:

1. HSWA Authorization. B. Driscoll said she believes a Federal Register Notice on January 2, 1996 authorized New Mexico for the Corrective Action Program under HSWA. She will check into the status of a letter from EPA to NMED which notifies NMED of the authorization. Following receipt of that letter, NMED will notify the regulated entities. Then, all correspondence will be with NMED, with EPA receiving copies.

2. EPA-NMED Work Share. Under the terms of the revised Work Share between EPA and NMED, NMED will conduct the technical review for the work in Los Alamos/Pueblo Canyon and in former OU 1093. EPA will continue to conduct the technical review for all other former Ous.

3. Core Team Meeting. B. Driscoll will be available by phone for the January 25, 1996 Core Team meeting. N. Morlock will not be available.

4. RFI Reports in FY96. B. Driscoll repeated her request for a list of RFI Reports (with associated PRSS) that will be submitted in FY96.

ACTION ITEMS:

1. T. Taylor is to ask T. Glatzmaier the status of Item 4.
