SUBJECT: POTENTIAL RELEASE SITE NUMBERS

Dear Ms. Hoditschek:

The Environmental Restoration (ER) Project has reviewed the list of Potential Release Sites (PRSs) as you requested in your February 26, 1996 letter. The New Mexico Environment Department requested the ER Project explain why 149 PRS numbers were not used. This letter serves as the ER Project's response to the February 26, 1996 letter.

The ER Project counted 139 PRSs in your list, not the 149 you indicated. A spreadsheet is enclosed for all units that were identified in your letter and are listed in our database. Many of the original numbers from the 1988 Solid Waste Management Unit (SWMU) Report were changed to new numbers. Where this occurs, the new number is identified and the old number is referenced.

The ER Project has not used the following PRS numbers. Therefore, no records exist for the following 21 PRS numbers:

0-036	7-002
0-037	16-014

In addition, PRS 54-003(a) was deleted in in the SWMU report and addressed as 54-014, 54-017, 54-018, and 54-019.

We would encourage you or your staff to sit down with our personnel to discuss the capabilities and history of our database development. Should you have any questions regarding this response, please contact Roy Bohn at (505) 665-5138.

Sincerely,

Tom Baca
