US Department of Energy

Dear Mr. Le-Doux:

RE: Request for Extension to Notice of Deficiency (NOD) - Los Alamos  
National Laboratory RCRA Waste Analysis Plan, Rev 0.0  
EPA ID No. NM0890010515-1

This is to acknowledge receipt of your letter to the Hazardous and  
Radioactive Materials Bureau (HRMB) of the New Mexico Environment  
Department (NMED) dated July 8, 1996. In this letter you requested a 14  
day extension to the response deadline described in the May 24, 1996,  
Notice of Deficiency issued for the Los Alamos National Laboratory (LANL)  
RCRA Waste Analysis Plan. The letter referred to a conversation you had  
with HRMB on June 28 in which you provided reasons for this extension.

HRMB hereby grants LANL a 14-day extension. This extension period takes  
effect from June 29 to July 12, 1996. HRMB requires LANL to respond to  
all issues identified in the NOD by July 12, 1996. Failure to submit the  
information within this designated time will result in the issuance of  
a compliance order with associated fines.

If you have any questions about this extension to the NOD, please contact  
Mr. Steve Zappe of my staff at (505) 827-1561.

Sincerely

Benito J. Garcia  
Chief, Hazardous & Radioactive Materials Bureau
