Dear Mr. Jansen:

The New Mexico Environment Department (NMED) Hazardous and Radioactive Materials Bureau (HRMB) would like to express its appreciation to LANL and the Facility for Information Management, Analysis, and Display (FIMAD) for digitizing and drafting the maps and figures for the recently published NMED report, "Hydrogeologic Evaluation at Los Alamos National Laboratory." NMED HRMB appreciates the opportunity to utilize this valuable resource.

NMED-HRMB would like to emphasize FIMAD's contribution to both the Environmental Restoration Project, as a whole, and the NMED document. FIMAD's comprehensive database and graphics capabilities not only enhanced the appearance of the report, but also illustrated the elements of significance within the report.

Sincerely,

Benito J. Garcia, Chief
Hazardous and Radioactive Materials Bureau
