Due to end-of-the-year time constraints and a desire to clarify issues with your staff in proposing no further action (NFA) for the appropriate potential release sites (PRSs) in these reports/responses, we would like to postpone submitting this information until after the beginning of the next federal fiscal year.

We hope that the Document of Understanding (DOU) Core Team can resolve some of the issues associated with proposing (NFA) for human health and ecological risk through the Integrated NFA Annex to the DOU. We look forward to this annex being generated and discussed in a workshop in mid-October. We propose to resubmit responses to the requests identified in the table above by November 15, 1997, assuming the October workshop is held as scheduled.

Please inform us of the acceptance of this request and call Dave McInroy at (505) 667-0819 or Joe Mose at (505) 667-5808 if you have any questions.

Sincerely,

Jorg Jansen, Program Manager
