Los Alamos, New Mexico 87544

**RE: SUBMITTAL OF RCRA DOCUMENTS AND CORRESPONDENCE AND
POINT OF CONTACT CHANGE
LOS ALAMOS NATIONAL LABORATORY
NM0890010515**

Dear Dr. Browne and Mr. Gurule:

This letter is to inform you of new points of contact and document submittal requirements for the Hazardous Waste Bureau (HWB [formerly Hazardous and Radioactive Materials Bureau]). This is an update to a previous letter from HWB, dated March 6, 2000, and addresses recent HWB personnel changes.

There are now two Project Leaders assigned to LANL. Effective immediately, John Young is the LANL Corrective Action Project Leader, and Carl Will is the LANL Permitting Project Leader. Mr. Young is the HWB point of contact for Corrective Action issues and document submittal, and Mr. Will is point of contact for Permitting issues and document submittal.

In accordance with this change, HWB requires that all formal correspondence and submittals to the HWB be submitted in the following manner (as also indicated on the attached table):

- 1) For Corrective Action submittals, submit the original correspondence (cover letter) with attachments (document) and one copy of the correspondence (cover letter) with attachments to the LANL Corrective Action Project Leader;
- 2) For Permitting submittals, submit the original correspondence and attachments and two copies of each to the LANL Permitting Project Leader;

13433

TL

Dr. Browne and Mr. Gurule
August 31, 2000
Page 2

- 3) Provide copies of the correspondence (cover letter only without attachments) to:
James P. Bearzi, Chief, Hazardous Waste Bureau;
John E. Kieling, Manager, Permits Management Program; and
Robert S. (Stu) Dinwiddie, RCRA Advisor
(unless otherwise indicated within correspondence).

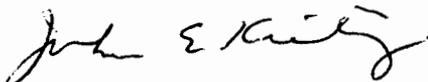

HWB may request additional copies if needed.

Compliance with these requirements does not relieve the facility of responsibility for submitting copies to EPA, other agencies, or other Bureaus within the New Mexico Environment Department as required or appropriate. The attached table provides guidance for submitting additional copies of documents.

Also, all RCRA submittals shall be forwarded in accordance with the document types identified in Tables 2.2, 2.3, 2.4 and 2.5 of the Hazardous Waste Fee Regulations (HWFR) 20 NMAC 4.2. Any proposed documents that vary from the HWFR Tables should be discussed with me prior to submittal.

If you have any questions regarding this letter please contact me at (505) 827-1558, extension 1012, or the appropriate LANL Project Leader.

Sincerely,

John E. Kieling
Manager
Permits Management Program
