CERTIFIED MAIL - RETURN RECEIPT REQUESTED

Mr. Carl Will
LANL Permits Project Leader
Hazardous Waste Bureau
New Mexico Environment Department
2905 Rodeo Park Drive East, Bldg. 1
Santa Fe, New Mexico 87505

Dear Mr. Will:

Subject: Response to Request for Information Pursuant to the New Mexico Hazardous Waste Act and the Resource Conservation and Recovery Act, Los Alamos National Laboratory, EPA ID No. NM0890010515

The purpose of this letter is to provide additional information for the Department of Energy (DOE) and University of California's (UC) response to the New Mexico Environment Department (NMED) Request for Information (RI) (Mr. James Bearzi, Hazardous Waste Bureau, to Dr. John Browne, LANL, and Mr. David Gurulé, U.S. Department of Energy [DOE], February 12, 2001). This response includes supplemental answers for the information requests as described in the sixty-day response submitted on April 16, 2001.

The document consists of additional information collected for fifteen of the information requests with supporting attachments, as referenced in the individual responses to the numbered information requests. This submittal is the final scheduled response addressing the information requested in the RI.

This response includes listings of the persons responsible for the production of the data used to answer the response and identifies the documents that provided information as required by information requests 20 and 21 of the February 12, 2001 letter. A certification for the contained data is also attached as required by 20.4.1 NMAC, Subpart IX, §270.11(d)(1).

We are hopeful that this information will expedite the current schedule for the renewal of the DOE/UC hazardous waste facility permit.

TK

13553

Mr. Carl Will
