

LANL General/02

Office of the Director

January 28, 2002

James P. Bearzi, Bureau Chief
Hazardous Waste Bureau
New Mexico Environment Department
2905 Rodeo Park Drive East, Building 1
Santa Fe, NM 87505-6303

SUBJECT: Delegation of Signature Authority

Dear Mr. Bearzi:

As Director of the Los Alamos National Laboratory (LANL), I previously had delegated this authority to the Deputy Laboratory Director for Operations. Richard Burick had the authority to review, approve and/or sign on behalf of the University of California (UC), as operator of LANL, all documents relating to environmental permits and compliance. Mr. Burick has retired and has been succeeded by James Holt, Associate Director for Operations.

I hereby transfer this delegation of authority to James Holt and his deputies, Barbara Stine and Scott Gibbs. This authority may be redelegated by Associate Director to the extent permitted by applicable environmental statutes and regulations and also by procedures approved by the UC.

This delegation of authority supercedes all previous delegations relating to environmental permits and compliance.

Sincerely,

John C. Browne
Director
