**SUBJECT: REQUEST FOR REVISED 2003 MAP DELIVERABLE**

Dear Mr. Young:

In response to your February 21, 2003 letter requesting revised maps, the Los Alamos National Laboratory and the Department of Energy are providing the attached map of active firing sites and firing sites that may be reactivated with their revised testing hazard zones and the safety and security buffer for all the Laboratory's explosive operations. These revised maps were prepared by DX Division personnel and are based on their latest evaluations of current and future operations. DX Division is currently preparing a memorandum describing all of the assumptions that were used in developing these maps. However, we suggest that a meeting between DX personnel and the New Mexico Environment Department be scheduled in order to review those assumptions in detail.

Please contact Don Hickmott at (505) 665-1116 or Lance Woodworth (505) 665-8820 should you have any questions.

Sincerely,

David McInroy, Acting Program Manager  
Remediation Program  
Los Alamos National Laboratory

Sincerely,

David Gregory, Acting Project Manager  
Department of Energy  
Los Alamos Site Operations
