SUBJECT: FIELD ACTIVITIES 15-DAY NOTIFICATION

Dear Mr. Bearzi:

The Los Alamos National Laboratory (LANL) Environmental Stewardship Remediation Services Project is planning to start plugging and abandonment activities at wells TW-1, TW-1a, TW-3, and TW-4 beginning on or after February 28, 2006. This work will represent activities presented in our letter Drilling Scope for Calendar Year 2006 (ER2005-0184) which was approved by NMED on June 24, 2006. Work will consist of sampling all wells, removing all surface completion materials, down-hole pumps and transducers, and plugging and abandoning the four test wells. The goal will be to complete all the field activities over a one month period beginning no sooner than February 28, 2006.

The list of well locations is given in the table below.
