Hi Becky,

Tim Sloan at TA-54 found record of 11 containers with 8 cubic meters each (~114 cubic yards total) of low level rad soil and cobble material. The dates material was received at Area G range from August 13 to 26, 1985. Let me know if you need more information.

Thanks.

Hi Mary Lee,

Attached is the spreadsheet with August 1985 MDA U waste received at TA-54, Area G. This is the "chemical/ low level data base" at TA-54, per Tim Sloan.

Let me know if you have any questions.

Tom

Hi Tim,

I have an ER Project customer who is requesting information on LLW volume from MDA U disposed at Area G in September 1985. If you can find any info it would be greatly appreciated. Please contact me if you have any questions or comments.

Thanks Tim.
