OFFICE MEMORANDUM

TO : S. E. Russo, Group Leader, ENG-3
Thru : ~~W.D.~~ Dean D. Meyer, Group Leader, H-1
FROM : Carl Buckland, Leader, H-1 General Monitoring Section
SUBJECT: CONTAMINATION SURVEY: BUILDINGS AND STRUCTURES, TA-16
SYMBOL : H-1

DATE: March 4, 1970

From following general survey

(Handwritten mark)

All of the structures and associated utility lines listed below were surveyed and found to be free from radioactive contamination on March 4, 1970; however, there is one piece of equipment in TA-16-27 identified with a radioactive material tag reading less than .5 mR/h at contact that should be removed. Due to the inaccessibility of some structures, clearance was provided on the basis of prior use after discussion with GMX-3.

<u>Structure No.</u>	<u>Description</u>
TA-16-27	Storage Building, including 3" water service, 6" sanitary sewer service, 2" steam and 1 1/4" conduit, 2" underground electrical conduit with 3 #1/0 and 1 #4 conductors, 2 1/2" underground electrical conduit with 2 #2/0 and 1 #4 conductors.
TA-16-93	Process Building, including 2" water service, 2" steam and 1" condensate, 8" VCP drain, 3 #2 and 1 #1/0 electrical conductor.
TA-16-384	Crossover Platform.
TA-16-390	Basket Washing Building, including 3" water service and 6" VCP drain, 1 1/4" underground electrical conduit with 3 #2 TW conductors.
TA-16-391	Tank, Fuel, including 1 1/2" gas service.
TA-16-793	Manhole (Industrial Waste), including 4" drain.
TA-16-794	Manhole (Industrial Waste), including 4" and 6" drain.
TA-16-795	Manhole (Industrial Waste), including 4" and 6" drain.
TA-16-796	Manhole (Industrial Waste), including 6" drain.
TA-16-797	Manhole (Industrial Waste), including 6" drain.
TA-16-798	Manhole (Industrial Waste), including 6" drain.
TA-16-799	Manhole (Industrial Waste), including 6" drain.
