RECORD OF TELECON

Project Name: LANL Deep Groundwater CME

Project Number: 124992.05

Date and Time: August 7, 2007

Call To:

Name: Bill Zavora

Company Name: Calgon

Telephone Number: 707-769-8193

Address:

Participants John Pietz, Shaw Environmental, Inc

Subject: Cost of Carbon (including regeneration)

Summary of Discussion:

Carbon used to treat waste water contaminated with HE is K045 RCRA hazardous. Current cost for carbon assuming a dedicated truck and a 20,000 pound exchange is approximately \$2/lb, including transportation from Los Alamos to Catlettsburg Ky, and regeneration of the carbon. This includes the cost for replacement carbon.

Required Action:

None
