Roy/Mark,

NMED has reviewed the HE sampling results for SWMUs 21-003-99, 21-024(c), and 21-013(c). NMED concurs that the sampling results revealed only non-detects of HE at these three sites. Further HE sampling is not required at these SWMUs.

Thanks,
 Katie

Katie,

Attached are the explosive compound analysis for samples collected at sites 21-003-99, 21-024(c), and 21-013(c). These samples were collected from the same locations and depths as the dioxin/furan samples and the data was previously submitted to you. No explosive compounds were detected in any of the samples. Based on this data we are not planning on performing additional sampling for explosive compounds at these sites. Please contact me if you have any questions. Thanks!

Sample	PRS
RE21-06-72611	21-003-99
RE21-06-68643	21-024(c)
RE21-06-68292	21-013(c)
