Subject: RE: SWMU 21-024(m) - Additional Sampling

The samples at locations 7, 8, and 9 have been collected. The remaining locations will be sampled on Monday and sent for quick turn analyses in accordance with your direction. Thank you very much for your quick respond Katie.

Mark

Subject: SWMU 21-024(m) - Additional Sampling

Mark,

NMED has received and reviewed the preliminary data for SWMU 21-024(m) and has the following comments:

- 1) The Permittees must submit all samples from locations 1-9 (location 6 has already been completed) for SVOC analysis.
- 2) The Permittees must submit samples from locations 4, 7, 8, and 9 for dioxin/furan analysis.
- 3) The Permittees have not yet submitted the results of HE analysis from sampling location 6, therefore a decision will be made regarding any additional HE analysis once NMED receives and reviews the data.
