Subject: Approval of TW-8 Pumping Test Work Plan

Mark,

This email serves as the New Mexico Environment Department's (NMED) approval for implementing the pumping test as described in the LANL document entitled TW-8 Pumping Test Work Plan, dated March 9, 2009. The referenced document was received by the New Mexico Environment Department (NMED) on March 10, 2009. This approval is based on the information available to NMED at the time of the approval. NMED requires that LANL will provide any changes to the work plan prior to the test, the date for which the test will occur, and the results of the pumping test as soon as such information becomes available. Thank you.

Michael R. Dale, NMED HWB
