Dear Mr. Plum:

SUBJECT: WITHDRAW LETTER TO NMED FOR TA-15 OD SITE

Attached is a draft letter to NMED requesting the withdraw of the TA-15 OD site from being a RCRA unit. This site has never been used for the treatment of waste explosives. We have attached a certification by DX Division so stating.

This request is part of our strategy to have all TSD operations either permitted, a permit application submitted for it, closed, or removed from the Part A. This is a commitment we have made to NMED. They are aware that some of the units contained in our Part A will be removed by either withdrawal or by closure. This is the first for the withdrawals. There will be several more in the future.

If you should have any questions concerning this issue please feel free to contact either Jack Ellvinger at 667-0633 or myself at 665-9659.

Sincerely,

Stacy Richardson
