Reference: Work Assignment No. Y513.06082.600.0011; State of New Mexico Environment Department, Santa Fe, New Mexico: General Permit Support Contract; Review of NMED-HSW Corrective Action Order for the Los Alamos National Laboratory, Work Plan, Draft deliverable task 11

Dear Mr. Bearzi:

Enclosed please find the draft deliverable of the Corrective Action Order. The draft deliverable has been prepared in redline/strikeout format which was sent to TechLaw. As was stated by Ms. Robinson this format is not consistent with normal CAO's but we were asked by NMED to follow the format provided.

In addition, yesterday on January 7, 2002, I received the 12/13/01 revision of Module VIII, entitled "Special Conditions pursuant to the 1884 HSWA to RCRA for LANL. There appears to be some compliance schedules in the draft permit which could impact the order. If this is not the case, please let us know. We intend to compare these two documents to ensure that all compliance schedules are consistent.

Due to the volume of paper involved, only one hard copy was sent to NMED. Email versions have been provided to: David Cobrain, Carl Will, Charles deSailans, and you.

If you have any questions, please feel free to contact Ms. Charlotte Robinson at (303) 393-1440, or myself at (303) 712-3704.

Sincerely,

June K. Dreith  
Program Manager
