Dear Mr. Cobrain:

This letter serves as a deliverable for the above-referenced work assignment. The task was to conduct a cursory review of the document, "Screening Level Ecological Risk Assessment Methods, Revision 2 for Los Alamos National Laboratory, New Mexico," dated December 2004.

Overall, the methodology applied in the guidance document is consistent with present day methods and specifically New Mexico Environment Department's (NMED) guidance document entitled "Guidance for Assessing Ecological Risks Posed by Chemicals: Screening-Level Ecological Risk Assessment" dated March 2000. No major modifications or comments are noted.

This letter deliverable was emailed to you on October 27, 2005 at David_Cobrain@state.nm.us to Ms. Darlene Goering at Darlene_Goering@state.nm.us. A formalized hard (paper) copy of this letter deliverable will be sent via mail. If you have any questions, please call me at (303) 763-7188 or Ms. Paige Walton at (801) 451-2978.

Sincerely,
