Buckman Direct Diversion Project

A joint regional project of the City of Santa Fe and Santa Fe County to build a reliable and sustainable water supply.

May 7, 2010

Mr. James Bearzi
Bureau Chief, Hazardous Waste Bureau
New Mexico Environment Department
2095 Rodeo Park Drive East, Bldg. 1
Santa Fe, NM 87505-6313

Dear Mr. Bearzi:

The Buckman Direct Diversion Board cordially invites you to attend the signing ceremony for the Memorandum of Understanding between with the Buckman Direct Diversion Board and the U.S. Department of Energy. Your support and assistance of this project has been instrumental to bringing us to this major step.

Thursday, May 13, 2010
9:45 am
City of Santa Fe Council Chambers
200 Lincoln Avenue

The Memorandum of Understanding is the culmination of a long process that began in November 2007 when the Buckman Direct Diversion Board requested six action steps by the Department of Energy and Los Alamos National Laboratory to safeguard the Rio Grande from Los Alamos National Laboratory contaminants after flash floods and heavy rains. The Memorandum of Understanding formalizes the commitments of the Department of Energy to the Buckman Direct Diversion Project regarding these six action steps and the Buckman Direct Diversion Board's acceptance of the Department of Energy commitments.

Please join us and our guest, U.S. Assistant Secretary of Energy for Environmental Management, Dr. Ines Triay on this momentous occasion.

For more information or to R.S.V.P., please contact Lynn Pitcher Komer, (505) 660-7682 or lynn@nm.net
