Mr. Tim Hall
New Mexico Hazardous Waste Bureau
2905 Rodeo Park Drive East, Building 1
Santa Fe, NM 87505-6303

Dear Mr. Hall:

**SUBJECT: INFORMATION REQUEST MIXED TRANSURANIC
CHARACTERIZATION ACTIVITIES LOS ALAMOS NATIONAL
LABORATORY EPA ID# NM 0890010515 REQUEST FOR EXTENSION**

On November 12, 2010 the U.S. DOE/NNSA and Los Alamos National Security (collectively, the Permittees) submitted a response to your October 8, 2010 *Request for Information* sent to the Permittees regarding mixed waste characterization activities conducted at the Los Alamos National Laboratory. You requested responses to fourteen (14) specific items related to mixed waste characterization activities conducted at the Los Alamos National Laboratory, to be furnished no later than November 12, 2010.

During a phone conversation between you and Environmental Protection Division (ENV-DO) staff on November 9, 2010, the Permittees requested an extension. Subsequently, New Mexico Hazardous Waste Bureau (NMED-HWB) offered an extension for responses to questions 1, 2, 3, and 6. These items will require additional time to respond and necessitate a thorough review in order to provide a complete and accurate factual response. The Permittees propose responses will be submitted to NMED-HWB on or before December 13, 2010.

During conversations with the ENV-DO staff of November 15, 2010, you further requested the Permittees submit a written request reflecting our discussion on November 9, 2010 for extensions to submittal questions, 1, 2, 3 and 6. Based on our agreement during phone conversation on November 9, 2010, the Permittees are requesting an extension for questions 1, 2, 3 and 6.

Mr. Tim Hall
ENV-RCRA-10-222
