John Kieling, Acting Bureau Chief  
Hazardous Waste Bureau  
New Mexico Environment Department  
2905 Rodeo Park Drive East, Building 1  
Santa Fe, NM 87505-6303

**Subject: Notification of the Transition from RACER to New Public Data Portal Website**

Dear Mr. Kieling:

This letter provides notification of the transition from the Risk Analysis, Communication, Evaluation, and Reduction (RACER) database to the public data portal website maintained by Los Alamos National Laboratory (LANL), currently known as "Intellus." As of March 20, 2012, web-based public access to environmental monitoring data will be provided by the new public data portal website known as "Intellus" and not by RACER. This portal is a daily mirror of the internal LANL database, will contain current data, and provides the public easier access to the data. The transition from RACER to the portal website has been discussed with and agreed to by your staff, the Oversight Bureau and the New Mexico Community Foundation.

LANL will, therefore, no longer provide updated data to the RACER project after March 20, 2012. LANL will instead provide timely updated data to this new public data portal website to meet its commitments in the 2007 Settlement Agreement and in the RCRA facility permit. If you have any questions, please contact Chris Echohawk at 505-667-0808 or [echohawk@lanl.gov](mailto:echohawk@lanl.gov).

Sincerely,

Alison M. Dorries  
Environmental Protection Division Leader
