Mr. John E. Kieling
Permits Management Program
Hazardous Waste Bureau
New Mexico Environment Department
2905 Rodeo Park Drive East, Building 1
Santa Fe, NM 87505-6303

Dear Mr. Kieling:

**SUBJECT: LOS ALAMOS NATIONAL LABORATORY HAZARDOUS WASTE FACILITY
PERMIT HARDCOPY INFORMATION REPOSITORY LOCATION CHANGE**

This letter provides notification that the physical information repository, known as the Hardcopy Public Reading Room (HPRR), for the Los Alamos National Laboratory (LANL) will be moved. The HPRR is required by Section 1.10 of the LANL Hazardous Waste Facility Permit (Permit). The HPRR maintains hardcopy documents, information, and correspondence required to be submitted by the Permit. On July 19, 2011 the National Nuclear Security Administration and Los Alamos National Security, LLC (NNSA/LANS), collectively known as the Permittees, provided notification to the New Mexico Environment Department – Hazardous Waste Bureau of the establishment, location, and hours of operation for the physical information repository for LANL. In this notification, the Permittees indicated the possibility that the location of the HPRR could change.

In May 2012, the HPRR will be moving to the new office location of the Northern New Mexico Citizens' Advisory Board (NNMCAB). It was determined that this is a more public and strategically located office that will make it easier for citizens in the local communities to access the HPRR. The HPRR features hard copy environmental documents, reports, and correspondence and is open to the general public from 9:00 a.m. - 4:00 p.m., Monday through Friday.

The HPRR will be out of service from May 8, 2012 through May 31, 2012. Beginning June 1, 2012, the HPRR will be located in Pojoaque at:

Northern New Mexico Citizens' Advisory Board Office
94 Cities of Gold Road
Santa Fe, NM 87506

A map is located on the NNM CAB webpage at: <http://www.nnmcab.energy.gov/>.

Public notice of this change will be made in accordance with Section 1.10 of the Permit through the NMED-HWB maintained LANL-facility mailing list, in newspapers, on the LANL environmental webpage, and through an electronic mail. If you have questions about this notification or the electronic or hardcopy Public Reading Rooms, please contact Mark Haagenstad (Water Quality & RCRA Group) at 505-665-2014 or Gene Turner (Los Alamos Site Office) at 505-667-5794.

Sincerely,
