SUBJECT **OVER PACKING DRUMS**

DATE March 9, 1993

MAIL STOP/TELEPHONE J595/5-6148

On April 7, 1992, the retrieval of 16 drums from Pad 2 began and continued the following day. Immediately after pulling the drums from the pad the drums were placed into a 12 mil plastic liner and set on a flatbed truck and transported to MD-33 where laborers and a forklift operator were used to off load the drums into this facility. The following day April 8, 1992, these drums were placed into 83 gallon overpacks, and then taken to MD-153 where these drums were staged awaiting examination at TA-8 Bldg. -22.
