Dear Mr. Bellows:

RE: EXTENSION OF DUE DATES IN COMPLIANCE SCHEDULE (ATTACHMENT "C") OF CONSENT AGREEMENT - COMPLIANCE ORDERS NMHWA, DOCKET NO. 93-01, 93-02, 93-03, and 93-04

This letter confirms the written request received from Joseph B. Rochelle of Los Alamos National Laboratory (LANL) on January 20, 1994 to extend the following deadline pursuant to the compliance schedule captioned above. I have reviewed this request and find that good cause has been shown to grant LANL the following extensions:

1. The 01/24/94 due date for submission of a complete response to NMED's Notice of Deficiency (NOD) for initial Technical Completeness Review is hereby extended to 01/28/94.

Accordingly, the following due dates are also extended:

2. The 02/04/94 due date for conclusion of final Technical Completeness Review of the permit application is hereby extended to 02/11/94.

3. The 02/07/94 due date to either approve the modification request, with or without changes, and modify the permit accordingly; deny the modification request; require that the modification request follow procedures for Class III modifications; or notification that the decision on the request will be made within the next thirty days is hereby extended to 02/14/94.
