SUBJECT: MST DIVISION RESPONSE TO APPARENT RCRA FINDINGS

MST Division had three apparent RCRA inspection findings. None of these apparent findings should be reported as MST violations. The following lists the apparent finding, MST response and attached is the supporting documentation.

Apparent Finding

MST Response

TA-3-32-102F CMS--Unlabeled Rags

The rags contain pump oil and are non-hazardous.

TA-3-32-104 MST-10 --Unknown Waste

MST submitted the proper paperwork and received confirmation that analysis was required and would be provided. This is in accordance with present Laboratory procedure. (See Attachment A1 and A2.)

TA-3-34-B14 STC--'improper labeling'

MST submitted a waste profile request, received and followed the labeling instructions provided by WPF office. (See Attachment B.)

If you have any questions or concerns, please contact me at 5-7220. I will be happy to assist you.
