MARK E. WEIDLER  
SECRETARY

EDGAR T. THORNTON, III  
DEPUTY SECRETARY

M E M O R A N D U M

TO: LANL File  
FROM: Jim Seubert   
SUBJECT: As stated  
DATE: December 15, 1995

On December 15, 1995, I spoke with Mr. Steve Hanson (see attached letter to Mr. Vosella from Mr. Hanson which was copied to Benito) re: questions that we had on the letter. He explained that our questions could be answered in what he refers to as "Discharge History" reports that are run quite frequently. Our questions were: What is the pH? and Are there any heavy metals and in what concentrations were they being discharged? After some discussion, it was decided that on our next annual inspection, HRMB - RCRA Inspection/Enforcement would look at these reports and determine if there may be cause for further investigation on discharges from the Radioactive Liquid Waste Treatment Facility (RLWTF).
