The purpose of this letter is to confirm the date and time for the tour of the captioned subject by representatives from the New Mexico Environment Department (Hazardous and Radioactive Materials Bureau), U. S. Department of Energy (Los Alamos Area Office) and the University of California. It is my understanding that on February 4, 1997, all parties will meet at the Los Alamos Area Office at 9:00 a.m. for a brief meeting and then proceed to TA-54 for a combined tour of TWISP Facilities prior to breaking up into two (2) groups. One group will then tour the RANT, WCRRF and RAMROD Facilities; the other will complete discussion regarding TWISP activities..

To prevent any unforeseen delays and to insure adequate transportation is provided, I am requesting that you provide me with a list of those staff members planning to attend the tour.

If there are any questions please contact me at 665-5042 or Edward Horst at 665-5326.

Sincerely,
