Ms. Debby Brinkerhoff  
Hazardous Waste Bureau  
2905 Rodeo Park Drive  
East, Building E  
Santa Fe, New Mexico 87505

Dear Ms. Brinkerhoff:

**SUBJECT: TRANSMITTAL OF EXTENSION REQUEST FOR <90 ACCUMULATION AREA**

The Los Alamos National Laboratory (LANL) request a 30 day extension for the < 90 day accumulation area at Technical Area 53, Building 3, Room A6 (Site ID #2116). The ninety-day period ends July 11, 2001.

We have three wooden crates containing mixed waste. Due to the size of these wooden crates we have not been able to obtain the proper DOT packaging containers needed to transport the waste to the Treatment, Storage and Disposal Facility (TSD). Due to the residual mercury LANL is unable to perform size reduction of the items to facilitate placement in normally used shipping containers. We are in the process of obtaining the proper containers needed for the transportation of this waste.

If you have any questions please contact Geri Rodriguez at 667-6259.

Sincerely,

Handwritten signature of James L. White in black ink.
