

**SUGGESTED LETTER**

March 2, 1993

Mr. Jeff Carmichael  
Los Alamos National Laboratory  
P.O. Box 1663  
Los Alamos, New Mexico 87545

Re: MG Industries - Compressed Gas Cylinders

Dear Mr. Carmichael:

At the request of Rainer Land and Ralph DeFeo of MG Industries, I'm sending you this letter in regards to MG Industries' desire to purchase existing compressed gas cylinders from Los Alamos National Laboratory (LANL). Based on correspondence from Mr. DeFeo, it is Region 6's understanding that the referenced cylinders will be transported to MG's Pennsylvania facility, where the residue from the cylinders will be removed and processed pursuant to an air discharge permit which has been issued to MG by the Pennsylvania Department of Environmental Resources. You are hereby notified that, as we have indicated in the past to MG, Region 6 has no objections to the program, and we do not feel that the program triggers RCRA solid waste regulations.

TL

I hope the above clearly indicates Region 6's position with respect to MG's program.

Sincerely yours,

Allyn M. Davis  
Director  
Hazardous Waste Management Division (6H)
