Re: Loma Vista Drive Sampling Plan, Operable Unit 1078 (OU 1078)
Los Alamos National Laboratory (NM0890010515)

Dear Mr. Vozella:

The Environmental Protection Agency (EPA) has reviewed and approves the sampling plan dated September 21, 1994, for the Loma Vista Drive Property with the following modification. Rather than comparing sampling results to screening action levels (SAL), results are to be compared with background for inorganics and practical quantitation limits (PQLs) for organics. If a SAL is exceeded then EPA may impose a Corrective Measure Study for a site.

If you should need additional assistance or have any questions, please feel free to contact Barbara Driscoll of my staff at (214) 665-7441.

Sincerely,

William K. Honker, P.E., Chief
RCRA Permits Branch
