Hi Kim,
Sorry it's taken awhile to get back with you ... the 1990 LAUR reports you mention address the Old Central School Site and include verification sampling that was conducted by HSE-8. I saw that the author for one of the reports was Lars Soholt so I asked him if there were/are specific PRSs associated with the reports. He said because the reports pre-date the permit, no PRSs are associated with the specific area, removed waste lines, that are covered in the 1990 report. Apparently the tanks in the general area later became PRSs but not the area addressed in the report(s) you asked about.

Hope this helps/makes sense!
