Mr. Fred Woods  
 US EPA Region VI  
 1201 Elm Street  
 Dallas, Texas 75270

Dear Mr. Woods:

Enclosed are photographs of Los Alamos National Laboratory's Chemical Waste Landfill (photos 102 & 041). A photo of the Radioactive Waste Landfill (photo 106) where asbestos waste is disposed is also included. These photos were to be submitted as part of the hazardous waste permit application as mentioned in a letter to you on November 19, 1980 (a copy of which is also enclosed). Due to construction as mentioned in the letter and flight scheduling the photos have not been available until now.

If you have need of further information or to arrange an onsite visit, please call Bill Crismon, of my staff at FTS 843-5288, or Jim White of the Laboratory's Waste Management staff at FTS 843-4301.

Sincerely,

Harold E. Valencia  
 Area Manager
